

GEMSE2021 is cancelled!

Dear participants and cycling enthusiasts,

As you have been able to read, GEMSE2021 is cancelled. We are sorry to have to make this decision. Despite the relaxations, there are still too many uncertainties at the moment to guarantee a successful tour in September. The constantly changing developments (in the new Delta-variant) and regulations in different countries prevent us from being able to do a proper preparation.

In order to provide clarity to you as participants and to enable you to adjust your summer plans in time, we as an organization have decided to cancel the tour.

We are sorry to bring you this disappointing announcement. We hope for your understanding and we will prepare for a new start in 2022. All registered participants will be contacted personally. We wish you and all other interested parties a happy cycling summer and hope to see you again in September 2022.

With sporty greetings,

Werner Smits en Michael Bots
